

Comfortable, close-fitting protection with anti-fog and scratch-resistant technology.

HexArmor® face shields are purpose-built to:

- Sit comfortably closer to the face for more protection
- Conveniently Click-and-Go® on HexArmor® safety helmets with the magnetic accessory system
- Keep vision completely clear with TruShield® anti-fog coating on the inside of the face shield and increase longevity with a scratch-resistant hard coat on the outside
- Nest evenly across the top of the helmet when pushed up and not in use, so wearers experience less strain and more balance
- Be compatible with HexArmor® earmuffs
- Meet ANSI Z87.1-2015, High Impact Z87+, CE EN166, CSA Z94.3, D3 liquid splash standards

TruShield® is a multipurpose dual coating that offers anti-fog protection on the inside of the face shield and a scratch-resistant hard coat on the outside of the face shield.

All HexArmor® TruShield® coatings have four unique characteristics:

- Permanent - it will never wash off
- Hydrophilic, absorbing properties
- Scratch-resistant
- Flow-coated

- 1 Interior fog-resistant coating
- 2 Ergonomic, close-to-face low-profile design
- 3 Exterior hard coat scratch resistance

Protective devices do not provide unlimited protection. Some operations may require machine guards, face shields, special filter lenses, or other safety equipment. Safety helmets do not provide complete protection against hazards, and should only be used in conjunction with the prescribed safety equipment for the application as well as defined safety practices.

UVEX SAFETY GROUP GmbH & Co. KG, parent company of HexArmor®, has achieved a Gold EcoVadis Rating, placing us in the top 5% of sustainable suppliers globally.
