FOUNDED THROUGH EXPERIENCE

GreyStone Group was founded by a veteran of both the military and federal law enforcement with more than three decades of combined service protecting others in some of the world's most challenging environments.

The founder served more than 20 years in the United States military, including combat service during Operation Desert Storm and Operation Iraqi Freedom. During service in Iraq, he was wounded in action and awarded the Purple Heart.

Following military service, he spent 22 years with the United States Department of State's Diplomatic Security Service (DSS) as a special agent, serving in assignments and TDY operations in some of the world's most complex security environments, including Iraq, Afghanistan, Libya, Ukraine, and other high-risk regions.

Throughout those years, one lesson remained constant: the men and women on the front lines deserve equipment that works in the worst conditions.

GreyStone was not founded simply to sell products. It was founded to provide personal protective equipment and mission-critical gear to the people doing the work themselves - first responders, public works employees, military personnel, law enforcement officers, utility crews, industrial workers, and emergency management professionals.

The products we offer are selected with the same mindset used by those who rely on their equipment every day: reliability, durability, functionality, and performance matter.

When people are counting on their equipment to protect them, "good enough" is not good enough.

GreyStone exists to support those who stand on the front lines protecting communities, maintaining critical infrastructure, and responding when others need help most.

GreyStone Group LLC is proud to be a certified Service-Disabled Veteran-Owned Small Business (SDVOSB), Veteran-Owned Small Business (VOSB), and Maryland Veteran-Owned Small Business Enterprise (VSBE), bringing mission-driven service, proven experience, and responsive support to government and commercial customers nationwide.

HOW TO REQUEST A QUOTE OR PLACE AN ORDER

To request pricing or place an order, please email:
info@greystone-solution.com

To ensure timely processing, please include the following information in your request

CONTACT INFORMATION: Agency Name, Point of Contact, Title/Position, Telephone Number, Email Address

PRODUCT: Manufacturer, Brand, Product Name, Item Number or SKU, Color, Size, Customization Requirements (if applicable), Quantity Requested

SHIPPING INFORMATION: Delivery Address, Required Delivery Date (if applicable), Additional Notes or Specifications

New Email

To: info@greystone-solution.com

Cc:

Subject: EPIC-6 Order - Texas Department of Transportation

To ensure timely processing, please include the following information in your request:

Agency Name:	Manufacturer:

EYE PROTECTION

EYE PROTECTION

HexArmor LT400

Lightweight rimless safety glasses featuring anti-fog lenses and a low-profile design for all-day comfort in manufacturing, warehousing, transportation, and general industrial environments. Available in clear and smoke lens options. SKU: GS501X1

HexArmor MX300

Premium wraparound safety glasses with integrated brow protection and anti-fog coatings for construction, utilities, fabrication, and maintenance operations. Available in clear, smoke, and indoor/outdoor lens options. SKU: GS501X2

HexArmor MX225G

Gasketed safety glasses featuring an integrated ventilation channel and soft seal to protect against dust, debris, and airborne particulates while maintaining all-day comfort. Available in clear and smoke lenses. SKU: GS501X3

HexArmor VS300G

Foam gasket safety glasses designed for dusty and high-particulate environments with removable gasket protection and anti-fog technology. Available in clear, smoke, and indoor/outdoor lens options. SKU: GS501X4

HEXARMOR

EYE PROTECTION

MCR BearKat® BK1

Lightweight wraparound safety glasses with Duramass® scratch-resistant lenses for general industrial, warehouse, transportation, and municipal operations. Available with clear, smoke gray, amber, and indoor/outdoor mirror lenses in clear, gray, black, and assorted frame colors. SKU: GS501X5

MCR Checklite® CL1

Ultra-light frameless safety glasses designed for all-day comfort in manufacturing, construction, utilities, and maintenance environments. Available in clear, smoke gray, silver mirror, amber, blue mirror, indoor/outdoor mirror, and anti-fog lens options with clear, smoke, and translucent frame colors. SKU: GS501X6

MCR Swagger® SR2

Athletic performance safety glasses featuring soft TPR nose pads and non-slip temples for all-day comfort. Available with clear, smoke, mirror, and anti-fog lens options. SKU: GS501X7

MCR Dominator® DM3

Premium sport-style safety glasses featuring MAX6® anti-fog technology and dual-material comfort temples for active industrial environments. Available with clear, smoke gray, amber, blue, silver, and indoor/outdoor mirror lenses in gunmetal/red, black/gray, black/blue, and black/lime frame combinations. SKU: GS501X8

MCR SAFETY

EYE PROTECTION

Radians Crossfire® ES5

Premium sport-style safety glasses featuring rubber nose pads and dual-injected temples for exceptional comfort and stability during active work environments. Available with clear, smoke gray, silver mirror, blue mirror, and polarized lenses in black, black/lime, and black/red frame combinations. SKU: GS501X9

Radians Revelation®

Lightweight wraparound safety glasses providing excellent side coverage and all-day comfort for manufacturing, construction, utility, and maintenance applications. Available with clear, smoke gray, amber, indoor/outdoor mirror, and anti-fog lens options. SKU: GS501X10

Radians Mirage®

Economical frameless safety glasses designed for general industrial, warehouse, transportation, and municipal operations. Available with clear, smoke gray, amber, blue mirror, and indoor/outdoor lens options. SKU: GS501X11

Radians Crossfire® Sniper

Sport-style safety glasses featuring a lightweight half-frame design and rubber temple inserts for secure all-day wear in construction, utilities, transportation, and industrial environments. Available with clear, smoke gray, silver mirror, blue mirror, and polarized lenses in black, black/red, and black/lime frame combinations. SKU: GS501X12

RADIANS

EYE PROTECTION WITH ADJUSTABLE HEAD STRAP

Magid AcuSpex® TurboDry® ESX4020

Sealed sport-style safety glasses featuring a removable TurboDry® moisture-wicking strap and foam gasket for enhanced protection against dust, debris, and airborne particles. Available with clear, smoke, and anti-fog lens options with black, red, and clear frame configurations for demanding industrial and outdoor environments.

SKU: GS501X13

HexArmor MX200G

Sealed safety glasses featuring an integrated foam gasket and removable snap-in head strap to protect against dust, debris, and airborne particles while maintaining all-day comfort. Available with clear and smoke anti-fog lenses and black/lime frame configurations for construction, manufacturing, utilities, mining, and industrial maintenance environments. SKU: GS501X14

Bolle Rush+ Series

Sport-style safety glasses featuring an adjustable elastic retention strap and anti-slip temples for a secure fit during active work environments. Available with clear, smoke, twilight, CSP, polarized, and anti-fog lens options in black and black/gray frame configurations for construction, utilities, manufacturing, transportation, and industrial maintenance applications. SKU:

GS501X15

Honeywell Uvex Carbonvision®

Low-profile hybrid safety goggle featuring a panoramic lens, soft facial seal, and adjustable fabric head strap for superior comfort and extended wear. Available with clear, gray, and anti-fog lens options in black, gray, and translucent frame configurations for manufacturing, laboratories, chemical handling, utilities, and dusty industrial environments. SKU: GS501X16

EYE PROTECTION SAFETY GOGGLES

Honeywell Uvex - Uvex Stealth®

The gold standard low-profile industrial goggle. Chemical splash rated, extremely comfortable, excellent optics, and probably the most recognized premium goggle in North America. Available in clear and gray HydroShield® anti-fog lenses with gray, teal, and navy frame options. SKU: GS501X17

Honeywell Uvex - Flex Seal®

Premium chemical-splash goggle with excellent face-seal performance for chemical processing and hazardous-materials environments. Available primarily in clear HydroShield® anti-fog lenses with gray frame configurations. SKU: GS501X18

HexArmor MX500

Premium over-the-glasses safety goggles featuring a wide panoramic lens, adjustable comfort strap, and low-pressure facial seal for extended wear over prescription eyewear. Available with clear and smoke anti-fog lenses in black and lime frame configurations for manufacturing, utilities, laboratories, construction, and industrial maintenance environments. SKU: GS501X19

Magid AcuSpex® CX4080

Over-the-glasses safety goggles featuring a TurboDry® adjustable strap, panoramic anti-fog lens, and soft facial seal for all-day comfort and reliable splash protection. Available with clear anti-fog lenses and black, gray, and translucent frame configurations for laboratories, chemical handling, manufacturing, utilities, construction, and industrial maintenance environments. SKU: GS501X20

EYE PROTECTION WELDERS GOGGLES

Best Welds Flip Front Welding Goggles - WG-2414SLF

Traditional flip-front welding goggles designed for oxy-fuel cutting, brazing, and welding applications. Features include lift-front shade lenses for quick inspection of work without removing eye protection and an adjustable elastic head strap. Available with 5 green IR/UV-protective lenses and soft vinyl construction. SKU: GS501X21

Best Welds Fixed Front Welding Goggles - WG-2414SFF

Lightweight fixed-front welding goggles providing continuous protection during cutting, brazing, and welding operations. Features a soft vinyl body, fixed shade lens design, and adjustable head strap for secure all-day comfort. Available with shade 5 green IR/UV protective lenses. SKU: GS501X22

Best Welds Flip Front 50 mm Welding Goggles - WG-LF-50MM

Professional welding goggles featuring large 50 mm flip-up lenses for rapid transition between active welding and inspection work. Designed for fabrication, maintenance, and industrial welding environments. Available with shade 5 green IR/UV lenses, soft frame construction, and adjustable elastic strap. SKU: GS501X23

Gateway Safety 368 Welding Goggles - 36U50

Compact cup-style welding goggles designed for torch cutting, soldering, brazing, and confined-space welding operations. Features lightweight construction, excellent peripheral protection, and comfortable strap retention. Available with 5 IR/UV-protective lens shades. SKU: GS501X24

EYE PROTECTION FACE SHIELDS

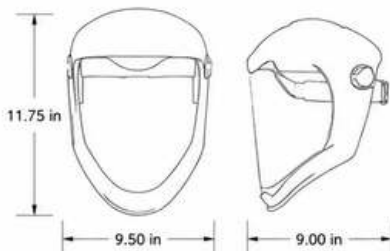

SKU: GS501X25

Jackson Safety MAXVIEW™ Series Premium Face Shields with Headgear, Uncoated/Clear, 9 in H x 13-1/4 in L

The Jackson Safety MAXVIEW™ Series delivers premium face protection, optical clarity, and all-day comfort for demanding industrial environments. Featuring a wide panoramic view, lightweight balanced design, and ratcheting headgear, this face shield provides maximum coverage and superior durability for grinding, cutting, welding, chipping, and splash protection applications.

- **Premium Optical Clarity** – Uncoated clear polycarbonate shield provides distortion-free visibility and impact protection.
- **Wide Coverage** – 9 in H x 13-1/4 in L visor offers extended protection from debris, sparks, and splashes.
- **Lightweight & Balanced** – Ergonomic design reduces fatigue during extended wear.
- **Adjustable Comfort** – Ratcheting headgear with pivoting attachments for a secure, custom fit.
- **Durable Construction** – Built for tough industrial, maintenance, and fabrication environments.
- **Compatible System** – Works with Jackson Safety replacement shields and accessories.

Applications: Grinding, cutting, chipping, welding, machining, woodworking, metal fabrication, maintenance, and general industrial use.

SKU: GS501X26

UVEX by PIP Bionic™ Face Shield, Uncoated, Clear/Black Matte

The UVEX Bionic™ Face Shield delivers advanced full-face protection with a modern, low-profile design and exceptional comfort. Engineered for demanding industrial environments, the Bionic™ system features a wide panoramic viewport for excellent visibility and a balanced, ergonomic design that reduces neck strain and improves all-day wearability.

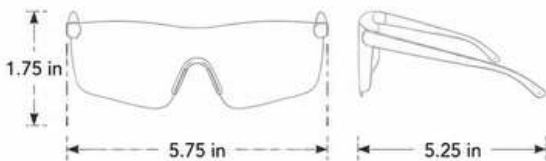

- **Full Face Protection** – Provides complete face coverage from impact, debris, dust, and splash hazards.
- **Wide Panoramic View** – Large clear shield offers superior optical clarity and an unobstructed field of vision.
- **Ergonomic & Lightweight** – Balanced design reduces pressure points and fatigue for extended wear.
- **Comfortable Headgear** – Adjustable ratchet headgear with cushioned sweatband for a secure, personalized fit.
- **Durable Construction** – Built with high-impact materials for long-lasting performance in tough environments.
- **Versatile Compatibility** – Works with a variety of UVEX replacement shields and accessories.

SPECIFICATIONS

- | | |
|----------------------------|---------------------------------------|
| • Shield Type: Full Face | • Material: High-Impact Polycarbonate |
| • Shield Coating: Uncoated | • Height: 11.75 in |
| • Shield Color: Clear | • Width: 9.50 in |
| • Frame Color: Black Matte | • Depth: 9.00 in |
| • Headgear Type: Ratchet | • Standard Pack: 1 EA / EA |

APPLICATIONS: Grinding, machining, cutting, chipping, sanding, general manufacturing, maintenance, laboratory, chemical handling, and other industrial environments.

EYE PROTECTION ACCESSORIES

SKU: GS501X27

Clear Frameless Safety Glasses, Dispenser Box.

Lightweight, frameless safety glasses designed for all-day comfort and clear, unobstructed vision. Each dispenser box provides convenient, easy access to individually wrapped glasses for clean, sanitary distribution in the workplace.

- **Frameless Design** – Sleek, modern look with a wide field of vision.
- **Lightweight Comfort** – Low-profile construction for extended wear.
- **Impact-Resistant Lenses** – Meets ANSI Z87.1+ for high impact protection.
- **Scratch-Resistant Coating** – Durable lens coating helps extend lens life.
- **Dispensing Convenience** – Box dispenser keeps glasses clean and readily available.
- **Universal Fit** – One-piece lens design fits a wide range of users.

SPECIFICATIONS

- Lens Material: Polycarbonate
- Lens Color: Clear
- Coating: Scratch-Resistant
- Frame Style: Frameless
- Temple Style: Straight
- Compliance: ANSI Z87.1+, CSA Z94.3
- Weight: Lightweight
- Quantity per Box: 24 Glasses
- Dispenser Box Type: Countertop

APPLICATIONS: General manufacturing, construction, warehousing, landscaping, maintenance, inspection, and other industrial environments.

SKU: GS501X28

Lens Cleaning Towelette Dispenser, 8 in L x 5 in W, 100 per Box

Pre-moistened lens cleaning towelettes designed to safely clean lenses and surfaces without scratching. Ideal for use on plastic, polycarbonate, and coated lenses.

- **Streak-Free Cleaning** – Leaves lenses clear and smudge-free.
- **Safe for Coated Lenses** – Non-abrasive formula is safe for anti-reflective coatings.
- **Pre-Moistened Convenience** – Ready-to-use individual towelettes.
- **Dispenser Box** – Easy access box keeps towelettes clean and organized.
- **Multi-Surface Use** – Great for safety glasses, goggles, face shields, and more.

SPECIFICATIONS

- Towelette Size: 8 in L x 5 in W
- Towelette Type: Pre-Moistened
- Formula: Non-Abrasive, Anti-Static
- Safe For: Plastic, Polycarbonate, and Coated Lenses
- Quantity per Box: 100 Towelettes
- Packaging Type: Dispenser Box
- Weight: Lightweight
- Usage: Single Use
- Box Type: Countertop Dispenser

APPLICATIONS: Safety glasses, goggles, face shields, sunglasses, computer screens, camera lenses, microscopes, and other optical surfaces.

HEARING PROTECTION

OVER-THE-HEAD EARMUFFS

3M PELTOR™ LiteCom Plus Headset

Integrated communication and hearing protection headset designed for crews operating in high-noise environments where clear team communication is critical to safety and productivity. Built-in two-way radio capability eliminates the need for separate handheld radios while providing dependable hearing protection for airport operations, public works departments, utility crews, heavy construction, rail operations, mining, and transportation agencies coordinating personnel across large work sites. SKU: GS601X01

3M PELTOR™ Tactical Sport™ Electronic Headset

Electronic hearing-protection headset engineered for environments that require both hearing protection and situational awareness. Advanced sound amplification technology allows normal conversation and environmental sounds to remain audible while automatically suppressing harmful impulse noises such as gunfire, explosions, and impact events. Ideal for law enforcement, firearms instructors, corrections personnel, range operations, tactical teams, and emergency response personnel. SKU: GS601X02

3M PELTOR™ ProTac III Headset - MT13H220A

Professional electronic hearing protection headset designed to protect hearing while maintaining communication and environmental awareness in demanding industrial environments. Level-dependent audio technology suppresses hazardous noise while amplifying speech and warning signals, making it well suited for manufacturing facilities, utilities, heavy equipment operators, airports, construction crews, transportation departments, public works agencies, and industrial maintenance operations requiring both hearing protection and operational awareness. SKU: GS601X03

3M PELTOR

OVER-THE-HEAD EARMUFFS

3M PELTOR™ Optime™ 98 Earmuff - H9A

Lightweight over-the-head hearing protector providing dependable 25 dB noise reduction for general industrial and municipal operations. The low-profile cup design and comfortable headband make it well-suited for all-day wear in manufacturing facilities, warehouses, grounds maintenance operations, public works departments, transportation shops, and for equipment operators exposed to moderate noise environments. SKU: GS601X04

3M PELTOR™ X Series Earmuff - X1A

Modern slim-profile hearing protector utilizing advanced cup and foam technology to deliver high attenuation with reduced weight and bulk. The ergonomic design improves comfort during extended wear while maintaining excellent compatibility with safety glasses and hard hats. Ideal for manufacturing, distribution centers, utilities, maintenance departments, construction crews, airport operations, and general industrial environments requiring dependable daily hearing protection. SKU: GS601X05

3M PELTOR™ Optime™ 105 Earmuff - H10AHV

High-attenuation over-the-head hearing protector providing 30 dB of noise reduction for extremely loud environments where maximum hearing protection is required. The high-visibility green cups improve worker visibility in active work zones, while the dual-shell design enhances low-frequency noise attenuation. Ideal for airports, highway departments, heavy construction, demolition operations, mining, heavy equipment operators, steel fabrication facilities, and transportation maintenance operations. SKU: GS601X06

3M PELTOR

OVER-THE-HEAD EARMUFFS

Howard Leight VeriShield Folding Dielectric Earmuff - VS110DF

Foldable dielectric hearing protector engineered for electrical environments where metal-free construction and portability are essential. The compact folding design allows easy storage in tool bags, service vehicles, and utility packs while maintaining dependable 25 dB noise reduction performance. Ideal for electrical utilities, power generation facilities, linemen, substations, telecommunications crews, transit maintenance personnel, and industrial electricians working around energized equipment. SKU: GS601X07

Howard Leight VeriShield 100 Series Passive Earmuff - VS130D

High attenuation over-the-head hearing protector delivering 29 dB noise reduction with an oversized earcup design for superior comfort during extended wear. The wide, cushioned headband and memory-foam ear cushions reduce pressure points while maintaining excellent acoustic protection. Ideal for manufacturing facilities, airports, public works departments, heavy equipment operators, maintenance shops, construction sites, and industrial operations requiring all-day hearing protection. SKU: GS601X08

Howard Leight Impact Sport Electronic Earmuff - R-01526

Electronic sound amplification earmuff designed to protect hearing while maintaining situational awareness and verbal communication in dynamic environments. Built-in directional microphones amplify low-level sounds while automatically suppressing harmful impulse noise from firearms, machinery, and impact events. Ideal for law enforcement agencies, firearms instructors, range operations, corrections tactical teams, public safety personnel, security contractors, and training environments where communication and hearing protection must coexist. SKU: GS601X09

HOWARD LEIGHT

OVER-THE-HEAD EARMUFFS

HexArmor K-Series® K1 Earmuffs

Low-profile over-the-head hearing protection designed for all-day comfort in moderate industrial noise environments. Lightweight padded headband construction reduces fatigue during extended wear while maintaining dependable hearing protection for manufacturing, warehousing, municipal maintenance, transportation departments, landscaping crews, and general industrial operations where mobility and communication remain important. SKU: GS601X10

HexArmor K-Series® K2 Earmuffs

Mid-level over-the-head hearing protection offering an excellent balance of noise reduction, comfort, and versatility for demanding work environments. Durable industrial construction and enhanced attenuation make the K2 ideal for public works departments, construction crews, utilities, heavy equipment operators, manufacturing facilities, distribution centers, airports, and transportation maintenance operations. SKU: GS601X11

HexArmor K-Series® K3 Earmuffs

Maximum attenuation over-the-head hearing protection engineered for high-noise industrial environments where superior hearing protection is critical. High-visibility design improves worker visibility while providing outstanding noise reduction in mining operations, asphalt plants, heavy construction, demolition, steel fabrication, aggregate operations, airports, oil and gas facilities, and other extreme-noise environments. SKU: GS601X12

HEXARMOR

HELMET MOUNTED EARMUFFS

3M PELTOR Optime 101 Cap Mount - H7P3E

High attenuation helmet-mounted hearing protection engineered for continuous exposure to elevated industrial noise levels while maintaining full compatibility with hard hats and face protection systems. Ideal for mining operations, steel fabrication facilities, demolition crews, asphalt plants, heavy construction operations, utility generation sites, rail maintenance teams, airports, and transportation infrastructure projects where superior hearing protection is required. SKU: GS601X13

3M PELTOR Optime 98 Cap Mount - H9P3E

Mid-range helmet-mounted hearing protector delivering balanced noise reduction and all-day comfort for demanding industrial environments. The slim profile and hard hat integration make it well-suited for construction crews, transportation departments, highway maintenance teams, public works agencies, manufacturing facilities, warehouse operations, airport maintenance personnel, and heavy equipment operators who require dependable daily hearing protection. SKU: GS601X14

3M PELTOR Optime 95 Cap Mount - H6P3E/V

Entry-level helmet-mounted hearing protection designed for lower- to moderate-noise environments where hard hat compatibility and worker mobility are priorities. The lightweight, low-profile cup design minimizes interference with face shields, safety glasses, and communication equipment while providing dependable protection for utilities, public works crews, grounds maintenance teams, survey personnel, airport ramp workers, and municipal operations personnel working around intermittent equipment noise. SKU: GS601X15

3M PELTOR

HELMET MOUNTED EARMUFFS

Howard Leight VeriShield 100 Series Passive Earmuffs, 27 dB, Black, Hard Hat - VS130H

High attenuation helmet-mounted hearing protector engineered for elevated industrial noise environments where hard hat compatibility and all-day comfort are essential. The oversized earcup design improves low-frequency noise reduction while maintaining compatibility with face shields and other headborne PPE. Ideal for heavy construction, airports, manufacturing facilities, mining operations, transportation departments, steel fabrication plants, utilities, and heavy equipment operators working in sustained noise environments. SKU: GS601X16

Howard Leight VeriShield 100 Series Passive Earmuffs, 21 dB, Black, Hard Hat - VS110H

Lightweight helmet-mounted hearing protection designed for moderate noise environments requiring comfort, mobility, and compatibility with hard hats and face protection systems. The compact profile reduces weight and fatigue during extended wear while providing dependable protection for municipal maintenance departments, warehouse operations, landscaping crews, utilities, public works agencies, airport ground personnel, and general industrial applications. SKU: GS601X17

Howard Leight VeriShield 100 Series Passive Earmuffs, 27 dB, Hi-Visibility Yellow, Hard Hat - VS130HHV

High-visibility helmet-mounted hearing protector providing enhanced worker visibility and superior noise reduction for active industrial work zones and transportation environments. The bright yellow earcups improve worker recognition around moving equipment while delivering dependable hearing protection for highway departments, airport operations, rail maintenance crews, utility companies, construction sites, public works agencies, and heavy equipment operators working in high-traffic environments. SKU: GS601X18

HOWARD LEIGHT

HELMET MOUNTED EARMUFFS

HexArmor K-Series Ceros K1C Earmuffs

Helmet-mounted hearing protection designed for seamless integration with the HexArmor Ceros safety helmet platform while maintaining a lightweight profile and all-day comfort. The low-profile design reduces snag hazards and improves mobility in confined workspaces while providing dependable hearing protection for manufacturing facilities, warehouses, municipal maintenance crews, utilities, airport operations, public works departments, and transportation maintenance personnel. SKU: GS601X19

HexArmor K-Series Ceros K2M Magnetic Earmuffs

Premium dielectric helmet-mounted hearing protector utilizing magnetic attachment technology for rapid deployment and adjustment while maintaining compatibility with electrical safety requirements. Designed for utilities, power generation facilities, substations, telecommunications crews, linemen, renewable energy projects, transportation infrastructure teams, airport maintenance operations, and industrial electricians working around energized equipment and demanding environments. SKU: GS601X20

Howard Leight VeriShield 100 Series Passive Earmuffs, 27 dB, Hi-Visibility Yellow, Hard Hat - VS130HHV

High-visibility helmet-mounted hearing protector providing enhanced worker visibility and superior noise reduction for active industrial work zones and transportation environments. The bright yellow earcups improve worker recognition around moving equipment while delivering dependable hearing protection for highway departments, airport operations, rail maintenance crews, utility companies, construction sites, public works agencies, and heavy equipment operators working in high-traffic environments. SKU: GS601X21

HEXARMOR

DISPOSABLE HEARING PROTECTION AND DISPENSER

HexArmor Turn2 Refillable Earplug Dispenser

Wall-mounted hearing protection dispenser designed to improve hearing protection compliance and provide rapid access to disposable earplugs in high-traffic work environments. The refillable high-capacity design reduces waste and simplifies inventory management while ensuring workers have immediate access to hearing protection at facility entrances, fabrication areas, airports, maintenance shops, utility facilities, warehouses, and construction staging areas. SKU: GS602X01

HexArmor accuFit Disposable Earplugs

Comfort-focused disposable earplug engineered for reliable all-day hearing protection with an ergonomic low-pressure fit. Available in orange, lime green, and gray color options to support site-specific programs, department identification, and hearing protection compliance initiatives. SKU: GS602X02

HexArmor safeComm Disposable Earplugs

Communication-enabled disposable earplug designed to provide hearing protection while allowing important speech and environmental sounds to remain audible. Available in high-visibility lime green for improved visibility and accountability in industrial and transportation environments. SKU: GS602X03

HEXARMOR

CORDED EARPLUGS

HexArmor simpleFit® Reusable Guided Earplugs - Coded

Reusable coded earplug designed for workers who repeatedly transition between noisy and quiet environments throughout the workday. Washable construction and guided insertion design improve comfort and reduce replacement costs while supporting hearing conservation compliance programs. Available in orange and lime green. SKU: GS603X01

HexArmor simpleFit® Detectable Reusable Guided Earplugs - Coded

Metal-detectable reusable coded earplug designed for environments requiring foreign object detection and contamination prevention. The highly visible blue construction supports food processing, pharmaceutical manufacturing, and clean production environments while providing dependable, reusable hearing protection. SKU: GS603X02

S - M - L

HexArmor accuFit Disposable Earplugs

Comfort-focused disposable earplug engineered for reliable all-day hearing protection with an ergonomic low-pressure fit. Available in orange, lime green, and gray color options to support site-specific programs, department identification, and hearing protection compliance initiatives. SKU: GS603X03

one size

Ideal For:

- Public Works
- Airports
- Port Authorities
- Utilities
- Transportation Operations

HEXARMOR

OTHER DISPOSABLE EARPLUG OPTIONS

Moldex SparkPlugs® Canister

Basically, a container full of sparkles for your ears. Bright colors make compliance easier while adding a little personality to the hearing conservation program. SKU: GS604X01

Moldex CAMO PLUGS® Dispenser

Because you never know when a camouflage emergency may strike. Tactical appearance meets serious hearing protection. SKU: GS604X02

Howard Leight Laser Lite Earplug Dispenser

Bright magenta and yellow earplugs that look suspiciously like candy corn for your ears. Fortunately, they provide hearing protection instead of a sugar rush. SKU: GS604X03

HEAD PROTECTION

HELMETS & HARD HATS

HEXARMOR

HexArmor Ceros® XT400 Type 2 Full Brim Helmet

Advanced Type 2 full-brim safety helmet engineered to provide both top and lateral impact protection while delivering exceptional comfort for extended wear. The integrated ventilation system, adjustable suspension, and modern low-profile design make the XT400 ideal for public works departments, airports, port authorities, utility crews, transportation agencies, industrial operations, and emergency response personnel requiring next-generation head protection. Available in multiple colors to support agency identification, departmental assignments, and operational visibility requirements. SKU: GS700X01

HexArmor Ceros® XP450AE Class E Safety Helmet

Premium short-brim safety helmet designed to deliver modern head protection with electrical hazard resistance and exceptional all-day comfort. Featuring a six-point suspension system, removable four-point chin strap, and accessory-ready design, the XP450AE is ideal for utilities, public works departments, airports, port authorities, transportation agencies, industrial facilities, and emergency response operations requiring dependable Class E protection. Available in multiple colors to support agency identification, departmental assignments, and operational visibility requirements. SKU: GS700X02

HexArmor Ceros® XP300AE Full Brim Safety Helmet

Modern full-brim safety helmet engineered to provide dependable head protection and enhanced environmental coverage in demanding work environments. Featuring a removable four-point chin strap, four-point suspension system, and accessory-ready platform, the XP300AE is ideal for public works departments, utilities, airports, port authorities, transportation agencies, industrial operations, and emergency response personnel who require secure, comfortable all-day protection. Manufactured in the USA and available in multiple colors to support agency identification, departmental assignments, and operational visibility requirements. SKU: GS700X03

Each available in the following colors

HELMETS & HARD HATS

SKULLGARD

MSA Skullgard® Full Brim Hard Hat

Premium full-brim hard hat engineered for demanding industrial and utility environments where durability, comfort, and long-term reliability are essential. The Fas-Trac® III suspension system delivers exceptional fit and all-day comfort, while the full-brim design provides additional protection from sun, rain, sparks, and falling debris.

Ideal for public works departments, utilities, transportation agencies, airports, port authorities, industrial operations, construction crews, and maintenance personnel operating in challenging environments. Available in tan, white, brown, green, and yellow to support agency identification, departmental assignments, and operational visibility requirements. SKU: GS700X04

MSA Skullgard® Cap Style Hard Hat with Lamp Bracket and Cord Holder

Specialized cap-style hard hat engineered for utility, underground, confined space, and industrial operations requiring hands-free illumination and accessory integration. The integrated lamp bracket and cord holder securely support headlamps and cap lamps while the rugged Skullgard® shell and Staz-On® suspension provide exceptional durability and all-day comfort in demanding environments.

Ideal for utilities, public works departments, airports, port authorities, transportation agencies, mining operations, tunneling crews, industrial maintenance personnel, and emergency response teams operating in low-light or confined environments. Available in natural tan, white, yellow, green, blue, orange, red, and brown to support agency identification, departmental assignments, operational visibility requirements, and specialized operational roles. SKU: GS700X05

HELMETS & HARD HATS

ROCK HELMETS

Singing Rock Blast Helmet

Lightweight technical rescue and climbing helmet designed for rope access, confined space entry, industrial rescue, and emergency response operations. Its compact profile, excellent ventilation, and universal sizing make it ideal for extended wear during demanding operations. Available in multiple high-visibility and operational colors to support agency identification and task assignments. SKU: GS700X06

Rock Helmets Dynamo ANSI Work Helmet

ANSI-rated industrial safety helmet engineered for construction, utilities, public works, telecommunications, and rescue professionals requiring modern head protection with improved comfort and accessory compatibility. The low-profile design, chin strap retention system, and multiple color options make it well suited for elevated work and technical environments. SKU: GS700X07

Singing Rock Flash Access Helmet

High-visibility access and rescue helmet designed for technical rescue, rope operations, tower work, and industrial access applications where visibility and worker identification are critical. Lightweight construction and secure retention make it ideal for airport operations, port authorities, utility crews, and public safety teams working in challenging environments.

Available color options vary by model and may include red, black, yellow, white, orange, blue, and high-visibility configurations to support safety programs, department identification, and operational requirements. SKU: GS700X08

HELMETS & HARD HATS

Dynamic Kilimanjaro™ Full Brim Hard Hat

Traditional full-brim hard hat designed to provide dependable overhead protection and increased coverage from sun, rain, and falling debris in demanding outdoor work environments. The lightweight HDPE shell, four-point textile suspension, and wheel ratchet adjustment system deliver exceptional comfort and a secure fit for extended wear.

Ideal for public works departments, utilities, airports, port authorities, transportation agencies, construction crews, industrial facilities, road maintenance teams, and municipal operations requiring reliable all-day head protection.

Available in black, white, yellow, orange, red, blue, green, gray, and high-visibility colors to support agency identification, departmental assignments, and operational visibility requirements. SKU: GS700X09

Dynamic Whistler™ Type I Class E Hard Hat

Lightweight cap style hard hat designed to provide dependable overhead and electrical hazard protection while maintaining exceptional comfort for all-day wear. The durable HDPE shell, four-point nylon suspension, and easy-adjust ratchet system make the Whistler™ an excellent choice for public works departments, utilities, airports, port authorities, transportation agencies, industrial facilities, construction crews, and maintenance operations.

The non-vented Class E design provides electrical protection for demanding work environments while offering an economical solution for large crews and municipal fleets.

Available in pink, white, yellow, orange, red, blue, green, gray, black, and high-visibility colors to support agency identification, departmental assignments, safety programs, and operational visibility requirements. SKU: GS700X10

PIP DYNAMIC

HELMETS & HARD HATS

Fibre-Metal E2 Hard Hat with Quick-Lok Mounting System

Available Colors: Blue, White, Yellow, Orange, Red, Green, Gray, Brown, Hi-Vis Yellow, and custom logo options.

Premium hard hat with integrated Quick-Lok mounting system allowing rapid attachment of welding shields, face shields, hearing protection, and other accessories. Ideal for fabrication shops, utilities, industrial maintenance, and multi-hazard work environments. SKU: GS700X11

Fibre-Metal SuperEight E1 Hard Hat

Available Colors: Blue, White, Yellow, Orange, Red, Green, Gray, Brown, Hi-Vis Yellow, and custom logo options.

Premium cap-style hard hat featuring Fibre-Metal's industry-leading SuperEight 8-point suspension system for exceptional comfort, stability, and impact protection. Ideal for utilities, construction, industrial maintenance, public works, and heavy infrastructure operations. SKU: GS700X12

PIP FIBRE-METAL

COWBOY HARD HATS

OccuNomix Vulcan Cowboy Hard Hat

A unique western-inspired hard hat that combines ANSI-rated head protection with classic cowboy styling for workers who want safety without sacrificing personality. The wide brim provides additional protection from sun, rain, and debris while the ratchet suspension system delivers a secure and comfortable fit throughout the workday.

Ideal for construction, utilities, oil and gas operations, ranching, public works, agriculture, event operations, and outdoor industrial environments where additional weather protection is beneficial.

Available colors include black, white, yellow, orange, red, blue, green, pink, and additional specialty finishes depending on model configuration and availability. Because sometimes safety regulations meet the Wild West. SKU: GS700X13

OCCUNOMIX VULCAN COWBOY

WELDING HELMET

3M Speedglas G5-03 Pro Welding Helmet

Often considered the gold standard of professional welding helmets, the Speedglas G5-03 Pro is designed for welders who spend long hours under the hood and demand exceptional optical clarity, comfort, and protection. The advanced auto-darkening filter delivers outstanding visibility before, during, and after the arc, while dedicated grind mode allows a seamless transition between welding preparation and finishing operations.

Built for fabrication shops, heavy industry, shipyards, pipeline operations, manufacturing facilities, refineries, and structural steel work, the G5-03 is trusted by professional welders worldwide for its durability and performance in demanding environments.

Features include:

- Premium auto-darkening filter (ADF) technology
- Large 2.8 in x 4.3 in viewing area
- Integrated grind mode for multipurpose operations
- Exceptional optical clarity and arc recognition
- Ergonomic design for all-day comfort
- Compatible with respiratory and accessory systems depending on configuration

Available in black with optional accessory configurations and upgrade packages available through the Speedglas product family.

When your livelihood depends on what you can see, clarity matters. SKU: GS710X01

3M SPEEDGLAS

WELDING HELMET

Lincoln Electric VIKING® Welding Helmets

The Lincoln Electric VIKING® family of welding helmets combines professional optical performance, advanced auto-darkening technology, and all-day comfort for fabrication, construction, manufacturing, pipeline, shipbuilding, and industrial welding environments. GreyStone can supply the complete VIKING helmet lineup, including entry-level, professional, and premium configurations as well as replacement parts, consumables, and accessories.

Popular VIKING helmet families include:

- VIKING® 1840 Series
- VIKING® 2450 Series
- VIKING® 3250 Series
- VIKING® 3350 Series
- VIKING® 3350 ADV Series
- VIKING® Industrial and Pipeline Configurations
- VIKING® PAPR Integrated Systems

Features commonly include:

- Auto-darkening filters with multiple shade ranges
- Industry-leading 4C® Lens Technology for enhanced color and clarity
- Large viewing areas for improved visibility
- External grind mode controls
- Lightweight ergonomic shell designs
- Premium headgear systems for all-day comfort
- Solar-assisted battery operation
- Optional respiratory and PAPR compatibility

Available accessories and replacement parts include:

- Replacement lenses and cover plates
- Headgear and ratchet assemblies
- Sweatbands and comfort padding
- Magnifying cheater lenses
- Battery and electronic components
- Helmet bags and storage systems
- PAPR components and respiratory accessories

VIKING helmets are available in standard industrial finishes as well as numerous graphic editions, including patriotic themes, camouflage patterns, industrial artwork, motorsports designs, skull graphics, custom shop finishes, and specialty limited editions, depending on model availability. Professional performance with designs that stand out in the shop, field, or fabrication floor. SKU: GS710X02

LINCOLN ELECTRIC

WELDING HELMET

Miller Electric Welding Helmets

Miller Electric welding helmets combine industry-leading optical clarity, advanced auto-darkening technology, and rugged construction for professional welders in fabrication, manufacturing, construction, maintenance, agriculture, and heavy industry. From entry-level shop helmets to premium digital welding systems, Miller helmets are engineered to improve visibility, comfort, and productivity in demanding environments.

Popular Miller helmet families include:

- Digital Elite™ Series
- Digital Infinity™ Series
- Classic Series Helmets
- Classic Metalworks™ Graphic Series
- MP-10™ Passive Welding Helmets
- T94™ Professional Welding Helmets

Features available across the Miller lineup include:

- ClearLight™ and ClearLight™ 2.0 lens technology
- Auto-darkening welding filters
- Large viewing areas for improved visibility
- Grind mode functionality
- Variable shade and sensitivity controls
- Lightweight, ergonomic shell designs
- High-speed arc detection and response
- Adjustable headgear systems for all-day comfort
- Compatibility with grinding, fabrication, and industrial welding applications

Miller helmets are available in standard industrial finishes as well as numerous graphic editions featuring patriotic, motorsports, industrial, custom shop, skull, flame, and metalwork-inspired designs, depending on model and availability.

Replacement lenses, headgear, sweatbands, protection plates, and service parts are available to support existing Miller helmet fleets and maintenance programs.

Industrial protection with professional performance and unmistakable style. SKU: GS710X03

MILLER ELECTRIC

WELDING HELMET

PIPE FIBRE-METAL

Fibre-Metal Tigerhood Classic Welding Helmet

A legendary fixed-shade welding hood trusted by generations of welders for its simplicity, durability, and reliability. The Tigerhood remains a favorite for pipe welding, fabrication shops, shipyards, and heavy industrial work where rugged performance matters most. Available in black with multiple shade options and replacement components available. Old school, dependable, and still earning paychecks every day. SKU: GS-WH-FM-0001

Fibre-Metal Pipeliner Welding Helmet

The iconic Pipeliner helmet has been a favorite of pipe welders, boilermakers, and ironworkers for decades. Lightweight, durable, and built for tight spaces, it remains one of the most recognized welding hoods in the industry. Available in white, black, silver, fiberglass, and specialty finishes depending on model configuration. There's a reason they've looked like this for decades - because they work. SKU: GS-WH-FM-0002.

Fibre-Metal Tigerhood Classic Welding Helmet

A traditional fixed-shade welding helmet built for dependable protection in fabrication shops, welding schools, maintenance operations, and heavy industrial environments. The oversized viewing window provides excellent visibility, while the rugged thermoplastic shell withstands sparks, slag, and everyday abuse. Available in gray, black, and select specialty colors depending on model and shade configuration. SKU: GS-WH-FM-0003

HELMET AND HARD HAT ACCESSORIES

OccuNomix® Hard Hat Accessories and Protective Liners

OCGUNOMIX

OccuNomix® hard hat accessories are designed to improve worker comfort, visibility, heat management, and cold weather protection in construction, utilities, transportation, manufacturing, energy, mining, and public works environments. GreyStone can supply the complete OccuNomix product family, including summer cooling products, winter liners, high-visibility accessories, and hard hat protection systems.

Popular product families include:

- MiraCool® evaporative cooling products
- MiraWarm® thermal winter liners
- High-visibility mesh sun shades
- Hard hat neck protection systems
- Full brim and cap style shades
- Reflective hard hat covers
- Winter fleece and insulated liners
- Tube liners and balaclava systems
- Fire-resistant head protection options
- Traffic and utility visibility accessories

Available configurations include:

- Full brim and standard hard hat compatibility
- Hi-vis yellow and hi-vis orange options
- Mesh and solid fabric constructions
- Reflective striping configurations
- Summer cooling and winter insulation systems
- Flame-resistant and arc-rated selections
- Lightweight, breathable designs
- Heavy-duty cold weather protection systems

OccuNomix products are available in black, navy, blue, gray, lime, hi-vis yellow, hi-vis orange, and reflective configurations designed for roadway crews, utility workers, construction personnel, survey teams, airports, rail operations, and emergency response environments. GreyStone can provide complete OccuNomix support, including replacement liners, seasonal accessories, cooling products, and winter protection systems to support year-round operations and fleet standardization programs.

HELMET AND HARD HAT ACCESSORIES

Ergodyne Chill-Its Cooling Accessories

Designed to help workers stay cooler, safer, and more productive in hot environments, the Ergodyne Chill-Its line offers one of the industry's most comprehensive selections of evaporative cooling and heat-stress management products. Trusted by construction crews, utilities, transportation departments, public works agencies, manufacturing facilities, emergency responders, and outdoor workers, Chill-Its products are engineered to reduce heat fatigue and improve comfort during prolonged exposure to high temperatures.

Popular product series include:

- Chill-Its® 6600 Series Evaporative Cooling Towels
- Chill-Its® 6700 Series Cooling Bandanas and Headbands
- Chill-Its® 6615 Series High-Performance Cooling Skull Caps
- Chill-Its® 6485 Series Cooling Neck Gaiters and Hard Hat Shades
- Chill-Its® 6690 Series Cooling Arm Sleeves
- Chill-Its® Cooling Vests and Phase Change Cooling Packs
- Chill-Its® Hard Hat Liners and Neck Protection Systems

Chill-Its products are available in a wide range of colors and patterns, including black, blue, navy, gray, orange, lime, hi-vis lime, hi-vis orange, red, white, camouflage patterns, patriotic stars and stripes designs, and numerous high-visibility options designed for roadway, utility, and construction applications.

Many products are available with ANSI high-visibility-compliant fabrics, reflective accents, flame-resistant options, and hard-hat-compatible designs for industrial and emergency response environments.

ERGODYNE CHILL-ITS

HELMET AND HARD HAT ACCESSORIES

HexArmor Ceros® Helmet Accessories

HexArmor Ceros® accessories are designed to create fully integrated head protection systems for industrial, utility, manufacturing, construction, and emergency response environments. Built around the Ceros® safety helmet platform, these accessories provide seamless compatibility while reducing weight, snag hazards, and setup time. Integrated magnetic mounting technology allows workers to quickly add or remove protection as job requirements change.

Popular accessory families include:

- Click-and-Go® Magnetic Face Shield Systems
- TruSpan® Clear and Mesh Face Shields
- K-Series® Magnetic Earmuffs
- XA and XP Face Shield Adapters
- Magnetic Helmet Adapters
- Replacement Sweatbands and Comfort Padding
- Chin Straps and Retention Systems
- Replacement Ratchet Padding Kits
- Mesh and Clear Replacement Visors
- Helmet Mounted Identification and Accessory Systems

Available configurations include:

- Clear Anti-Fog Face Shields
- Metal Mesh Face Shields
- Hearing Protection Attachments
- Magnetic Quick-Release Mounting Systems
- Full Face Coverage Options
- Electrical and Arc-Rated Configurations
- Type I and Type II Helmet Compatibility
- Vented and Non-Vented Helmet Systems

HexArmor accessories are engineered to integrate with Ceros® XP, XT, and XA helmet platforms while remaining compatible with hearing, face, and eye protection systems to provide complete head protection solutions.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

HEXARMOR

HELMET AND HARD HAT ACCESSORIES

3M Speedglas® Welding Systems and Accessories

Designed for professional welding, fabrication, shipbuilding, energy, manufacturing, and heavy industrial environments, the 3M Speedglas® platform combines advanced auto-darkening welding protection with integrated respiratory, eye, face, and hearing protection systems. GreyStone can supply the complete Speedglas product family, including helmets, powered air-purifying respirator (PAPR) systems, replacement components, consumables, and accessories.

Popular product families include:

- G5-01 Heavy Duty Welding Systems
- G5-03 Professional Welding Helmets
- 9100 Series Welding Helmets
- Adflo® PAPR Respiratory Systems
- Versaflo® Integrated Helmet Systems
- Welding PPE Starter Kits and Bundles
- Auto-Darkening Filters and Cartridges

Available accessories and replacement parts include:

- Front panels and exterior helmet shells
- Auto-darkening welding filters
- Inner and outer protection plates
- Headgear assemblies and ratchet systems
- Sweatbands and comfort padding
- Breathing tubes and air ducts
- PAPR blower units and batteries
- Chargers and battery accessories
- Airflow indicators and filters
- Flame-resistant face seals and shrouds
- Respiratory hoods and fabric components
- Replacement visors and lenses
- Carry bags and storage systems

Configurations are available for MIG, TIG, Stick, Flux-Core, Plasma Cutting, Grinding, and Heavy Industrial applications, including integrated respiratory protection for confined-space, welding-fume, and hazardous-particulate environments. GreyStone can supply the complete Speedglas product family, including welding helmets, Adflo® PAPR systems, replacement components, consumables, and maintenance accessories.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

3M SPEEDGLASS

HELMET AND HARD HAT ACCESSORIES

Miller Electric Welding Helmet Accessories

Miller Electric welding accessories are designed to improve comfort, protection, visibility, and helmet longevity in fabrication, manufacturing, construction, maintenance, and industrial welding environments. GreyStone can supply the complete Miller accessory lineup, including replacement components, consumables, comfort systems, and welding apparel designed to support both new equipment purchases and existing helmet fleets.

Popular accessory families include:

- Replacement headgear assemblies and ratchet systems
- Sweatbands and comfort padding kits
- Front cover lenses and protection plates
- Auto-darkening filter replacement components
- Helmet shell replacement parts
- Welding caps and under-helmet apparel
- Flame-resistant head and neck protection
- Storage bags and transport systems
- Grinding shields and accessory kits
- Replacement knobs, hardware, and adjustment systems

Available accessories and apparel include:

- Cotton welding caps
- Reversible welding caps
- Flame-resistant welding hoods
- HeadThreads™ welding caps and skull caps
- Cooling and moisture-management headwear
- Helmet suspension replacements
- Protective lens systems
- Helmet maintenance and refurbishment kits

Miller welding apparel and accessories are available in traditional industrial colors as well as numerous graphic designs, including flames, skulls, patriotic themes, racing graphics, metalwork finishes, and custom shop-inspired patterns, depending on model and availability. GreyStone can provide complete support for Miller replacement parts for helmet maintenance programs, repair requirements, and fleet sustainment operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

MILLER ELECTRIC

HELMET AND HARD HAT ACCESSORIES

Helmet Protective Bags and Storage Systems

Protective helmet bags and storage systems help extend the service life of welding helmets, PAPR systems, face shields, and respiratory equipment while keeping gear organized and ready for deployment. GreyStone offers transport and storage solutions from leading manufacturers including 3M Speedglas®, PureFlo®, Tillman®, and other industrial safety brands.

Popular product categories include:

- Welding helmet carry bags
- PAPR storage and transport bags
- Helmet and gear duffel bags
- Drawstring protective bags
- Multi-compartment equipment organizers
- Lens and accessory storage systems

Available features include:

- Heavy-duty nylon and polyester construction
- Padded and reinforced protection
- Dedicated compartments for accessories and batteries
- Shoulder straps and carry handles
- Ventilated storage designs
- Field and shop deployment configurations

GreyStone can provide storage solutions for individual users, maintenance programs, and large helmet fleets across industrial, utility, manufacturing, and emergency response environments.

Product Availability Notice

The products featured in this catalog represent a curated selection of solutions available through GreyStone Group LLC and are intended to illustrate our capabilities across workforce protection, environmental response, emergency preparedness, and industrial safety markets.

This catalog is not a comprehensive listing of all products, manufacturers, or solutions available to our customers. Through our extensive network of manufacturers, distributors, and industry partners, GreyStone can source thousands of additional products beyond those shown here.

If you are searching for a specific item, manufacturer, specification, or application solution not included in this catalog, please contact our team. We will gladly determine product availability, identify suitable alternatives when appropriate, and provide a competitive quotation tailored to your requirements.

GreyStone welcomes opportunities to support government, public safety, industrial, utility, educational, and commercial customers with both standard and hard-to-find products.
