FOUNDED THROUGH EXPERIENCE

GreyStone Group was founded by a veteran of both the military and federal law enforcement with more than three decades of combined service protecting others in some of the world's most challenging environments.

The founder served more than 20 years in the United States military, including combat service during Operation Desert Storm and Operation Iraqi Freedom. During service in Iraq, he was wounded in action and awarded the Purple Heart.

Following military service, he spent 22 years with the United States Department of State's Diplomatic Security Service (DSS) as a special agent, serving in assignments and TDY operations in some of the world's most complex security environments, including Iraq, Afghanistan, Libya, Ukraine, and other high-risk regions.

Throughout those years, one lesson remained constant: the men and women on the front lines deserve equipment that works in the worst conditions.

GreyStone was not founded simply to sell products. It was founded to provide personal protective equipment and mission-critical gear to the people doing the work themselves - first responders, public works employees, military personnel, law enforcement officers, utility crews, industrial workers, and emergency management professionals.

The products we offer are selected with the same mindset used by those who rely on their equipment every day: reliability, durability, functionality, and performance matter.

When people are counting on their equipment to protect them, "good enough" is not good enough.

GreyStone exists to support those who stand on the front lines protecting communities, maintaining critical infrastructure, and responding when others need help most.

GreyStone Group LLC is proud to be a certified Service-Disabled Veteran-Owned Small Business (SDVOSB), Veteran-Owned Small Business (VOSB), and Maryland Veteran-Owned Small Business Enterprise (VSBE), bringing mission-driven service, proven experience, and responsive support to government and commercial customers nationwide.

HOW TO REQUEST A QUOTE OR PLACE AN ORDER

To request pricing or place an order, please email:
info@greystone-solution.com

To ensure timely processing, please include the following information in your request

CONTACT INFORMATION: Agency Name, Point of Contact, Title/Position, Telephone Number, Email Address

PRODUCT: Manufacturer, Brand, Product Name, Item Number or SKU, Color, Size, Customization Requirements (if applicable), Quantity Requested

SHIPPING INFORMATION: Delivery Address, Required Delivery Date (if applicable), Additional Notes or Specifications

New Email

To: info@greystone-solution.com

Cc:

Subject: EPIC-6 Order - Texas Department of Transportation

To ensure timely processing, please include the following information in your request:

Agency Name:	Manufacturer:
Point of Contact:	Brand:
Title/Position:	Product Name:
Telephone Number:	Item Number:
Email Address:	Color:
	Size:
	Customization Requirements (if applicable):
	Quantity Requested:
	Delivery Address:
	Required Delivery Date (if applicable):
	Additional Notes or Specifications:

Thank you for your interest in GreyStone Group LLC. We look forward to supporting your agency.

Sincerely,
GreyStone Group LLC

EXAMPLE

RESPIRATORY PROTECTION

N95 DISPOSABLE RESPIRATOR

PARTICULATE RESPIRATORS

3M 8210 N95 Disposable Respirator

The benchmark for disposable respiratory protection in industrial and occupational environments. The cup-style design provides reliable N95 filtration performance for dust, particulates, and non-oil-based airborne contaminants commonly encountered in construction, maintenance, manufacturing, utilities, and public works operations.

3M Aura 9205+ N95 Disposable Respirator

Premium three-panel folded respirator engineered for exceptional comfort, fit, and communication during extended wear. The low-profile design accommodates a wide range of face shapes and is widely favored in healthcare, industrial, emergency response, and facility maintenance applications.

Moldex 2200 N95 Disposable Respirator

Durable Dura-Mesh shell construction resists collapse from heat, humidity, and prolonged use in demanding environments. Designed for construction, transportation, outdoor operations, and industrial maintenance where durability and long service life are critical requirements.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

N95 DISPOSABLE VALVED RESPIRATORS

PARTICULATE RESPIRATORS

3M 8511 N95 with Cool Flow Valve

The industry benchmark for valved disposable respirators. The Cool Flow valve reduces heat and moisture buildup, making it ideal for hot environments and long wear periods. Widely used in construction, public works, utilities, manufacturing, and industrial maintenance operations.

3M Aura 9211+ N95 with Cool Flow Valve

Premium three-panel folded design offering exceptional comfort and fit across a wide range of face shapes. The low-profile profile works well with safety glasses and other PPE while reducing fogging and improving communication. Popular in healthcare, industrial, emergency-response, and facility-maintenance environments.

Moldex 2300N95 Respirator with Ventex Valve

Designed for demanding industrial environments where durability matters. The Dura-Mesh shell resists collapsing from heat, humidity, and rough handling, while the Ventex valve helps reduce breathing resistance and heat buildup. Excellent for heavy construction, transportation, and outdoor operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

WELDING RESPIRATORS

WELDING FUME AND OZONE PROTECTION

Moldex 2600N95 Series Welding Respirator

Probably the gold standard disposable welding respirator. Features a Dura-Mesh® shell construction, a flame-resistant outer layer, and a Ventex® exhalation valve for cooler breathing in hot environments. Ideal for fabrication shops, shipyards, industrial maintenance, and structural steel operations.

3M 8515 N95 Welding Respirator

One of the most widely recognized welding respirators in North America. Designed specifically for welding applications involving metal fumes and ozone, with an integrated Cool Flow™ valve to reduce heat and extend comfort during long shifts.

Moldex 2400N95 HandyStrap Respirator with Ventex Valve

Combines Moldex's durable shell construction with the HandyStrap feature that allows workers to lower the respirator around their neck during breaks without removing their hard hat or misplacing the mask. Particularly useful for inspectors, maintenance crews, utility workers, and intermittent-use applications.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

P95 DISPOSIBLE RESPIRATORS

OIL AND NON-OIL PARTICULATE PROTECTION

3M 8271 P95 Particulate Respirator

The benchmark P95 respirator for environments involving oil- and non-oil-based particulates. Features a Cool Flow™ exhalation valve to reduce heat buildup and improve comfort during extended wear in manufacturing, machining, transportation, and maintenance operations.

Moldex 2740 P95 Respirator

Durable Dura-Mesh® construction combined with a Ventex® exhalation valve provides excellent performance in hot and humid environments. Well suited for metalworking, industrial maintenance, manufacturing, and utility operations involving oil aerosols and fine particulates.

3M 8577 P95 Particulate Respirator

Premium nuisance odor respirator designed to provide P95 particulate filtration while reducing unpleasant organic vapors and odors commonly encountered during painting, waste handling, and maintenance operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

P100 DISPOSIBLE RESPIRATORS

HIGH-EFFICIENCY PARTICULATE PROTECTION

3M 8293 P100 Disposable Respirator

The flagship disposable P100 respirator features advanced filtration efficiency and a Cool Flow™ exhalation valve for improved comfort. Widely used for lead abatement, pharmaceutical operations, hazardous dust environments, and emergency response applications.

Moldex 4700N100 Disposable Respirator

Premium disposable respirator featuring Dura-Mesh® shell technology and Ventex® valve design for exceptional durability and comfort in demanding industrial environments with hazardous particulates and fine dust.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

WILDFIRE SMOKE PROTECTION

SMOKE AND WILDFIRE PARTICULATE PROTECTION

3M Aura 9211+ N95 Respirator with Cool Flow Valve

Premium fold-flat N95 respirator designed for extended wear during wildfire smoke events and outdoor operations. The Cool Flow exhalation valve reduces heat buildup and breathing resistance during prolonged use in hot environments.

Common applications include wildfire smoke exposure, emergency management operations, public works cleanup, utilities restoration, transportation, and outdoor field operations.

3M VFlex 9105 N95 Respirator

A large breathing chamber and low breathing resistance provide exceptional comfort during extended wear. The flexible design accommodates a wide range of face shapes while maintaining excellent filtration performance.

Common applications include smoke events, debris cleanup, public works operations, utilities restoration, and emergency response support activities.

3M 8293 P100 Respirator

Heavy-duty disposable respirator providing one of the highest levels of particulate filtration available in a disposable platform. Frequently selected for heavy smoke conditions, ash exposure, and extended cleanup operations involving fine airborne particulates.

Common applications include wildfire response, disaster recovery, demolition, ash cleanup, and emergency operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

HALF MASK RESPIRATOR

GAS, VAPOR, AND PARTICULATE PROTECTION

3M 7500 Series Half Facepiece Respirator

The gold-standard elastomeric half-mask respirator is used across industry, utilities, public works, and government agencies. Premium silicone construction, excellent comfort, and the massive availability of 3M cartridges make it the default choice for many municipalities and industrial users. Compatible with particulate, organic vapor, acid gas, and combination cartridges.

Honeywell North PIP 7700 Series Half Mask Respirator

Probably the strongest competitor to the 3M 7500 in government procurement. The medical-grade silicone facepiece and excellent sealing characteristics have made it extremely popular with utilities, water treatment plants, chemical facilities, and municipal agencies. Many Texas counties and industrial sites standardize on the North cartridge ecosystem.

Honeywell North PIP 5500 Series Half Mask Respirator

A lower-cost version of the 7700 designed for large fleet purchases and occasional users without sacrificing compatibility with North cartridges. Frequently seen with contractors, public works crews, facilities maintenance teams, and municipal operations where budget considerations matter.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

FULL FACE RESPIRATOR

CHEMICAL AND PARTICULATE PROTECTION

North RU6500 Full Face Respirator

Professional full-face respirator providing respiratory and eye protection against particulates, chemical vapors, gases, and airborne contaminants. Silicone face seal and wide panoramic lens make it ideal for utilities, wastewater treatment, chemical handling, industrial maintenance, and emergency response operations.

3M Secure Click FF-800 Series Full Face Respirator

Premium full-face respirator featuring the Secure Click cartridge connection system for rapid cartridge changes and improved airflow. Designed for industrial maintenance, chemical processing, utilities, and hazardous materials operations requiring advanced respiratory and eye protection.

Moldex 9000 Series Full Face Respirator

Lightweight thermoplastic elastomer respirator designed for long-duration wear in industrial environments involving airborne particulates, gases, vapors, and chemical contaminants. Wide field of view and comfortable construction reduce user fatigue during extended operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

FULL FACE RESPIRATOR

MSA UltraVue Series Full Face Air Purifying Respirator

Designed for demanding industrial, utility, and emergency response environments where both respiratory and eye protection are required. The large panoramic lens provides exceptional visibility while the low-profile design improves comfort, communication, and compatibility with helmets and other protective equipment.

Compatible with a wide range of cartridges and filters for protection against particulates, chemical vapors, gases, and hazardous airborne contaminants encountered in petrochemical facilities, utilities, manufacturing operations, confined spaces, and hazardous materials incidents.

Applications:

- Petrochemical facilities
- Oil and gas operations
- Utilities and power generation
- Chemical manufacturing
- Water and wastewater treatment
- Confined space entry
- Emergency response and hazmat teams
- Industrial maintenance

ADVANCED CHEMICAL AND HAZMAT PROTECTION

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

PAPR RESPIRATOR

3M Versaflo TR-600 PAPR System

Battery-powered respiratory protection system that provides filtered airflow to compatible hoods, helmets, and facepieces, reducing breathing resistance and user fatigue during extended operations. Commonly used in hazmat response, industrial maintenance, utilities, wastewater treatment, chemical processing, and confined space support.

TR-626 High Durability Belt

Heavy-duty belt assembly designed to support the TR-600 blower unit in demanding industrial and emergency-response operations. Provides improved comfort and durability for extended wear applications.

Versaflo Premium Hood with Inner Shroud

Lightweight hood system providing respiratory protection and splash resistance while maintaining excellent visibility and user comfort. Ideal for painting, chemical handling, pharmaceutical manufacturing, and industrial cleaning operations.

Accessories

Available accessories include filters, batteries, chargers, breathing tubes, replacement hoods, face shields, helmet systems, and carrying cases to support mission-specific requirements.

POWERED AIR PURIFYING PROTECTION

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

PAPR RESPIRATOR

3M Versaflo TR-800 Intrinsically Safe PAPR System

Intrinsically safe powered air purifying respirator designed for hazardous environments where combustible gases, vapors, or dust may be present. Provides battery-powered filtered airflow to compatible hoods, helmets, and facepieces while reducing breathing resistance and user fatigue during extended operations.

Commonly used in oil and gas operations, refineries, chemical plants, utilities, grain handling facilities, and hazardous industrial environments.

Versaflo Premium Hood with Inner Shroud

Lightweight hood assembly providing respiratory protection and splash resistance while maintaining excellent visibility and user comfort. Ideal for painting operations, chemical handling, pharmaceutical manufacturing, and industrial cleaning environments.

Heavy-Duty Rechargeable Battery

Extended-duration rechargeable battery designed to support long operating periods in demanding industrial and emergency-response environments. Provides reliable power for continuous airflow during extended work shifts and incident response operations.

Air Regulating Valve Adapter

Specialized adapter allowing compatibility with select Versaflo air regulation systems and breathing components. Supports flexible system configuration based on operational and mission requirements.

Accessories

Available accessories include batteries, chargers, breathing tubes, replacement hoods, face shields, helmet systems, airflow components, and carrying solutions to support mission-specific requirements.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

POWERED AIR PURIFYING PROTECTION

PAPR RESPIRATOR

MSA OptimAir TL PAPR System

Battery-powered respiratory protection system providing filtered airflow to compatible hoods and head coverings while reducing breathing resistance and user fatigue during extended operations. Commonly used in chemical handling, pharmaceutical manufacturing, industrial maintenance, decontamination operations, and hazardous materials response.

OptimAir TL Standard Kit

Complete PAPR system including blower unit, breathing tube, battery charger, decontamination belt, and extended-life battery to support long-duration industrial and emergency response operations. Designed as a turnkey respiratory protection platform for contaminated or hazardous environments.

OptimAir TL Tyvek QC Hood

Lightweight hood assembly providing respiratory protection and splash resistance while maintaining excellent visibility and user comfort. Ideal for pharmaceutical production, industrial cleaning, chemical handling, and decontamination operations.

OptimAir TL Tychem SL Hood

Chemical protective hood designed for operations involving hazardous liquids, splash hazards, and chemical contaminants requiring additional protection beyond standard disposable hoods. Frequently used by hazmat teams, decontamination operations, and chemical response personnel.

Multi-Gas and P100 Filter Cartridges

Available cartridge options provide protection against particulates, organic vapors, acid gases, ammonia, formaldehyde, and other industrial contaminants depending on operational requirements and selected cartridge configuration.

POWERED AIR PURIFYING PROTECTION

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

SCBA RESPIRATOR

IDLH AND OXYGEN DEFICIENT ATMOSPHERE PROTECTION

MSA G1 Full Facepiece

Premium full-facepiece designed for use with the MSA G1 Self-Contained Breathing Apparatus platform. Features a wide field of view, integrated voice amplification capability, and comfortable harness options for extended emergency response operations.

Commonly used by fire departments, hazmat teams, industrial emergency response teams, confined space rescue personnel, and technical rescue operations.

4-Point Kevlar Harness

Heavy-duty Kevlar harness designed for demanding emergency response environments. Provides secure retention and durability for firefighting, rescue, and hazardous materials operations.

5-Point Rubber Harness

Chemical-resistant rubber harness providing quick donning and excellent decontamination capability. Ideal for hazardous materials response and industrial emergency operations.

Applications

- Structural firefighting
- Hazmat response
- Confined space rescue
- Industrial emergency response teams
- Chemical facilities
- Refineries and petrochemical plants
- Municipal fire departments
- Technical rescue operations

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

REPLACEMENT CARTRIDGES AND FILTERS

3M 2091 P100 Particulate Filter

Part Number: 2091

High-efficiency P100 particulate filter for lead, asbestos, silica, mold remediation, pharmaceutical manufacturing, and hazardous dust environments.

3M 7093 P100 Hard Case Filter

Part Number: 7093

Encapsulated P100 filter offering additional protection against sparks, splashes, and contamination in industrial environments.

3M 6001 Organic Vapor Cartridge

Part Number: 6001

Protection against paints, solvents, fuels, petroleum products, and many industrial organic vapors.

3M 6002 Acid Gas Cartridge

Part Number: 6002

Protection against chlorine, sulfur dioxide, hydrogen chloride, and other acid gas hazards.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

REPLACEMENT CARTRIDGES AND FILTERS

3M 6003 Organic Vapor / Acid Gas Cartridge

Part Number: 6003

Combined protection against organic vapors and acid gases commonly encountered in utilities and industrial maintenance.

3M 6004 Ammonia/Methylamine Cartridge

Part Number: 6004

Designed for ammonia refrigeration systems, agriculture, fertilizer handling, and wastewater operations.

3M 60921 OV/P100 Combination Cartridge

Part Number: 60921

Organic vapor protection combined with P100 particulate filtration.

3M 60923 OV/AG/P100 Combination Cartridge

Part Number: 60923

Protection against organic vapors, acid gases, and airborne particulates.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

REPLACEMENT CARTRIDGES AND FILTERS

3M 60923 OV/AG/P100 Combination Cartridge

Part Number: 60923

Protection against organic vapors, acid gases, and airborne particulates.

3M 60926 Multi-Gas/Vapor/P100 Cartridge

Part Number: 60926

Broad-spectrum cartridge for chlorine, sulfur dioxide, ammonia, formaldehyde, organic vapors, and particulates.

Honeywell North Multi-Gas/P100 Cartridge

Part Number: 7583P100L

Popular with municipal utilities and industrial facilities using North respirator platforms.

MSA GME-P100 Combination Cartridge

Part Number: 815369

Multi-gas and particulate cartridge used with MSA respirator systems.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

PRE FILTERS, RETAINERS, AND ADAPTERS

3M 501 Filter Retainer

Part Number: 501

Allows attachment of particulate filters over compatible vapor cartridges.

3M 502 Adapter

Part Number: 502

Adapter for combining cartridges and particulate filters.

3M 603 Filter Adapter

Part Number: 603

Adapter used with 2000 and 7000 series particulate filters.

3M 5N11 N95 Pre-Filter

Part Number: 5N11

Disposable pre-filter extending cartridge service life.

3M 5P71 P95 Pre-Filter

Part Number: 5P71

Oil-resistant pre-filter for industrial environments.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

3M Respirator Cleaning Wipes

Part Number: 504

Individually packaged cleaning wipes for reusable respirators.

Allegro Respirator Cleaning Pads

Part Number: 037-1001

Alcohol-free cleaning pads for routine maintenance.

Radians Respirator Wipes

Part Number: RW-100

Pre-moistened IPA wipes for respirator cleaning.

CLEANING SUPPLIES

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

Moldex Reusable Respirator Bag

Part Number: 9780

Reusable storage bag for respirators and accessories.

3M Respirator Storage Bag

Part Number: FF400-25

Storage bag compatible with 6000, 7000, and FF-400 series respirators.

STORAGE BAGS AND CARRY CASES

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

3M Versaflo Premium Hood with Inner Shroud
Part Number: S-707-10
Disposable hood for PAPR systems.

MSA OptimAir Tyvek QC Hood

Part Number: 10083969
General industrial and pharmaceutical hood.
Comes in Single or double bib.

MSA OptimAir Tychem SL Hood

Part Number: 10083839
Chemical-resistant hood for hazmat and
decontamination operations.

REPLACEMENT HOODS

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

3M Versaflo TR-830 Battery

Part Number: TR-830

Heavy-duty rechargeable battery for TR-800 systems.

3M Versaflo TR-641 Battery Charger

Part Number: TR-641N

Single-station battery charger.

BATTERIES AND CHARGERS

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

BREATHING TUBES AND BELT ASSEMBLIES

3M Versaflo BT-30 Breathing Tube

Part Number: BT-30

Standard breathing tube for Versaflo systems.

3M TR-626 High Durability Belt

Part Number: TR-626

Heavy-duty belt for TR-600 and TR-800 systems.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

RESPIRATOR ACCESSORIES AND CONSUMABLES

3M Qualitative Fit Test Kit

Part Number: FT-10

Saccharin-based fit testing system.

3M Qualitative Fit Test Kit
Part Number: FT-30
Bitrex-based fit testing system.

FIELD TEST KITS

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

PROTECTIVE CLOTHING

TYVEK AND TYCHEM PROTECTIVE COVERALLS

DUPONT

DuPont Tyvek® and Tychem® Protective Apparel

DuPont protective garments provide solutions ranging from light-duty particulate protection to fully encapsulated chemical protection for hazardous environments.

- Tyvek® 400 SFR – Flash fire escape and particulate protection for industrial and utility environments.
- Tychem® 2000 – Economical splash protection against many inorganic chemicals and light hazardous materials.
- Tychem® 4000 – Enhanced chemical barrier protection for industrial decontamination and chemical handling operations.
- Tychem® 5000 – High-performance Level B encapsulated protection for HazMat, CBRN, and emergency response missions.

Available configurations include coveralls with collars or hoods, aprons, sleeve protectors, and fully encapsulated suits in a wide range of sizes and protection levels.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

CUT RESISTANT CLOTHING

HEXARMOR CUT-RESISTANT APPAREL

HexArmor cut-resistant apparel combines industry-leading cut, puncture, and abrasion protection with lightweight comfort for manufacturing, metal fabrication, automotive, glass handling, recycling, utilities, and industrial maintenance operations. Available in high-visibility yellow-and-gray color combinations and a wide range of sizes, the product line includes cut-resistant shirts, quarter-zips, arm guards, and full forearm sleeves that utilize advanced HPPE and engineered fiber blends. Key features include ANSI cut protection, puncture resistance, thumb loops, sleeve retention systems, breathable construction, and high-visibility options that improve worker safety while maintaining comfort and mobility during extended wear.

HEXARMOR

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

ARC FLASH KITS

MAGID

Magid FR 40 Cal Arc Flash Kit with Built-In Fan

Complete CAT 4 arc flash protection designed for personnel working on or near energized electrical equipment. This premium kit features a 40 cal/cm² arc rating, an integrated cooling fan for improved comfort, and includes the essential protective components needed for high-risk electrical tasks. Ideal for utilities, public works, water and wastewater facilities, industrial maintenance, and electrical contractors requiring NFPA 70E compliant PPE.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

ELECTRICAL SAFETY SOLUTIONS

ARC FLASH PPE KITS AND ELECTRICAL PROTECTIVE APPAREL

Our arc flash and electrical safety product line includes complete 8 cal/cm² and 12 cal/cm² PPE kits designed to meet NFPA 70E requirements for electrical workers, utility personnel, industrial maintenance teams, and EV technicians. Available in multiple sizes and configurations, these systems include arc-rated coveralls, jackets, bib overalls, face shields, balaclavas, hard hats, safety glasses, gloves, and carry bags to provide comprehensive protection against arc flash and electrical hazards. Solutions are available from trusted manufacturers including Oberon and PIP for utility, industrial, power generation, and electric vehicle applications.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

Product Availability Notice

The products featured in this catalog represent a curated selection of solutions available through GreyStone Group LLC and are intended to illustrate our capabilities across workforce protection, environmental response, emergency preparedness, and industrial safety markets.

This catalog is not a comprehensive listing of all products, manufacturers, or solutions available to our customers. Through our extensive network of manufacturers, distributors, and industry partners, GreyStone can source thousands of additional products beyond those shown here.

If you are searching for a specific item, manufacturer, specification, or application solution not included in this catalog, please contact our team. We will gladly determine product availability, identify suitable alternatives when appropriate, and provide a competitive quotation tailored to your requirements.

GreyStone welcomes opportunities to support government, public safety, industrial, utility, educational, and commercial customers with both standard and hard-to-find products.
