FOUNDED THROUGH EXPERIENCE

GreyStone Group was founded by a veteran of both the military and federal law enforcement with more than three decades of combined service protecting others in some of the world's most challenging environments.

The founder served more than 20 years in the United States military, including combat service during Operation Desert Storm and Operation Iraqi Freedom. During service in Iraq, he was wounded in action and awarded the Purple Heart.

Following military service, he spent 22 years with the United States Department of State's Diplomatic Security Service (DSS) as a special agent, serving in assignments and TDY operations in some of the world's most complex security environments, including Iraq, Afghanistan, Libya, Ukraine, and other high-risk regions.

Throughout those years, one lesson remained constant: the men and women on the front lines deserve equipment that works in the worst conditions.

GreyStone was not founded simply to sell products. It was founded to provide personal protective equipment and mission-critical gear to the people doing the work themselves - first responders, public works employees, military personnel, law enforcement officers, utility crews, industrial workers, and emergency management professionals.

The products we offer are selected with the same mindset used by those who rely on their equipment every day: reliability, durability, functionality, and performance matter.

When people are counting on their equipment to protect them, "good enough" is not good enough.

GreyStone exists to support those who stand on the front lines protecting communities, maintaining critical infrastructure, and responding when others need help most.

GreyStone Group LLC is proud to be a certified Service-Disabled Veteran-Owned Small Business (SDVOSB), Veteran-Owned Small Business (VOSB), and Maryland Veteran-Owned Small Business Enterprise (VSBE), bringing mission-driven service, proven experience, and responsive support to government and commercial customers nationwide.

TACTICAL ELECTRONIC DISTRACTION DEVICE (T.E.D.D.)

T.E.D.D.

120 dB (at 1m) 3kHz • 2600 Lumens • 60 Minutes of Continuous Light & Sound

The Tactical Electronic Distraction Device (T.E.D.D.) is a reusable, non-explosive light and sound distraction device designed for law enforcement, corrections, tactical teams, riot control, and training. Offering an alternative to traditional flash bang diversionary devices, the T.E.D.D. provides rapid visual and acoustic distraction without pyrotechnics, allowing repeated use while reducing logistical burden, storage concerns, and disposal requirements. Ideal for training and operational environments where a reusable, less complex diversion tool is preferred.

FOX FURY LIGHTING

INTRINSICALLY SAFE PERSONAL SAFETY LIGHT

Compact Intrinsically Safe Personal LED Flasher

The Freakin' Beacon is a rugged, compact LED flasher designed to keep workers visible and safe in hazardous environments. With bright, long-lasting light and multiple mounting options, it's the trusted beacon for professionals needing reliable, hands-free safety signaling on the job.

- **Highly Visible Signal** – Emits a flashing light visible from over 1,000 feet, available in five vibrant colors to help identify teams or highlight personnel.
- **Compact and Lightweight** – Small and portable at just 3.4 ounces, with a size that easily attaches to helmets, vests, or belts without hindering movement.
- **Built to Last** – Constructed to be waterproof (IP67), dustproof, and drop-resistant up to 2 meters, ensuring durability in tough work conditions.
- **Easy Operation** – Features a large, glove-friendly push-button switch and comes with multiple mounting options, including a metal clip, a plastic clip, a magnet mount, and a 3M dual lock.
- **Extended Runtime** – Powered by two included AAA alkaline batteries, it runs up to 200 hours in flash mode, providing up to 25 workdays of reliable visibility.

KOEHLER BRIGHTSTAR

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

INTRINSICALLY SAFE

Responder Pro Right-Angle LED Alkaline Flashlight

The Koehler Bright Star Responder Pro Right-Angle LED Flashlight is a rugged, hands-free lighting solution designed for firefighters, law enforcement, EMS, industrial safety, and utility professionals. Its right-angle design easily clips to turnout gear, safety vests, belts, or harnesses, providing dependable illumination while keeping both hands free for critical tasks. Durable, lightweight, and easy to operate, it is ideal for emergency response, inspections, maintenance, and everyday field operations.

Koehler Bright Star B.F.L. Area Light

The Koehler Bright Star B.F.L. Area Light is a powerful rechargeable work light designed for construction, public works, utilities, emergency response, and industrial maintenance. Delivering up to 3,000 lumens of adjustable illumination, it features multiple brightness settings, adjustable color temperature, a rugged weather-resistant design, and a built-in magnetic base for convenient hands-free lighting in demanding work environments.

Koehler Bright Star Raptor Spot Rechargeable Lantern

The Koehler Bright Star Raptor Spot Rechargeable Lantern is a high-performance searchlight engineered for firefighters, law enforcement, emergency responders, utilities, and industrial professionals. Delivering a powerful long-range beam with extended runtime, this rugged rechargeable lantern is designed for search operations, emergency scenes, and low-visibility environments where dependable illumination is critical. Its durable, weather-resistant construction makes it ideal for demanding field use.

KOHLER BRIGHTSTAR

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

INDUSTRIAL & JOBSITE LIGHTING

PELICAN

Pelican Remote Area Lighting System (12,000 Lumens)

Professional portable LED area lighting system delivering up to 12,000 lumens with multiple adjustable light heads and three preset brightness levels. Housed in a rugged Pelican protective case with telescoping poles, rechargeable battery power, and a waterproof design, it provides reliable illumination for emergency response, search and rescue, law enforcement, fire departments, utilities, disaster response, and remote worksite operations.

Pelican Remote Area Lighting System (1,600 Lumens)

Compact portable LED remote area lighting system delivering up to 1,600 lumens with three selectable brightness levels and a rugged, rechargeable battery-powered design. Built with Pelican's durable weather-resistant construction, it provides dependable illumination for emergency response, law enforcement, fire departments, utility crews, inspections, disaster response, and remote worksite operations.

Pelican Remote Area Lighting System (6,000 Lumens)

Portable rechargeable LED area lighting system delivering up to 6,000 lumens with a telescoping mast and three selectable brightness levels for reliable scene illumination. Built with Pelican's rugged weather-resistant construction and long-lasting LED technology, it is ideal for emergency response, fire and rescue, law enforcement, utility crews, public works, disaster response, and remote jobsite operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

INDUSTRIAL & JOBSITE LIGHTING

Milwaukee M18 Rover LED Cordless Flood Light, Dual Power Triple-Panel Flood and Area Light

The Milwaukee M18 Rover LED Cordless Flood Light delivers up to 4,500 lumens of powerful, adjustable illumination for construction sites, maintenance operations, emergency response, and industrial work environments. Featuring three pivoting LED panels, dual power capability, multiple hanging options, and an integrated rafter hook, this rugged flood light provides versatile hands-free lighting wherever it's needed. Battery sold separately.

****Milwaukee M18 Rover LED Cordless Flood Light, Tool Only, 1,300 Lumens****

The Milwaukee M18 Rover LED Cordless Flood Light delivers up to 1,300 lumens of bright, portable illumination for maintenance, construction, inspection, and industrial work. Its compact, impact-resistant design features multiple hanging options for convenient hands-free lighting, making it ideal for confined spaces, workshops, and job sites. Tool only. Battery sold separately.

MILWAUKEE

Milwaukee M18 Rover LED Cordless Flood Light, Dual Power Flood Light, 4,000 Lumens

The Milwaukee M18 Rover LED Cordless Flood Light delivers up to 4,000 lumens of high-output illumination for construction, maintenance, emergency response, and industrial job sites. Featuring dual power capability, a rugged impact-resistant design, and multiple hanging options for hands-free operation, this versatile flood light provides reliable lighting for demanding indoor and outdoor work environments. Bare tool. Battery sold separately.

INDUSTRIAL & JOBSITE LIGHTING

STREAMLIGHT

Streamlight Portable Scene Light Rechargeable Lantern (12V)

Portable rechargeable LED scene light engineered to deliver powerful flood illumination for emergency response and large area lighting. Featuring multiple brightness settings, selectable beam patterns, and the ability to operate from either its internal rechargeable battery or an external 12V DC power source, it is ideal for fire departments, law enforcement, EMS, utilities, public works, search and rescue, and disaster response operations.

Streamlight E-Flood LiteBox Rechargeable Lantern (615 Lumens)

Industrial duty rechargeable LED flood lantern delivering up to 615 lumens with a wide, even beam for close range area illumination. Featuring AC/DC charging, up to 18 hours of runtime on low, and an adjustable swivel head, it is ideal for fire departments, law enforcement, utilities, public works, industrial maintenance, inspections, and emergency response operations.

Looking for a specific product? Contact GreyStone with the manufacturer, brand, model or part number, color, size, quantity, and any required specifications. Our team will source the product and provide a competitive quote, even if it is not shown in this catalog.

Product Availability Notice

The products featured in this catalog represent a curated selection of solutions available through GreyStone Group LLC and are intended to illustrate our capabilities across workforce protection, environmental response, emergency preparedness, and industrial safety markets.

This catalog is not a comprehensive listing of all products, manufacturers, or solutions available to our customers. Through our extensive network of manufacturers, distributors, and industry partners, GreyStone can source thousands of additional products beyond those shown here.

If you are searching for a specific item, manufacturer, specification, or application solution not included in this catalog, please contact our team. We will gladly determine product availability, identify suitable alternatives when appropriate, and provide a competitive quotation tailored to your requirements.

GreyStone welcomes opportunities to support government, public safety, industrial, utility, educational, and commercial customers with both standard and hard-to-find products.
